Girls Who Code Campus programs are two-week immersion programs for middle school and high school girls to learn computer science fundamentals, gain exposure to tech jobs and join a supportive sisterhood of tens of thousands of girls who code across the US!

Girls Who Code offers:

**Condensed Learning for Busy Summer Schedules**
Campus programs are immersion courses that use project-based learning to equip and inspire your daughter with the confidence and skills necessary to pursue computer science; condensed into a two-week time frame to accommodate your summer plans.

**Research-based Curriculum**
The introductory coding curriculum is centered on Girls Who Code's Core4 computer science skills, career exposure and community building.

**Trained Educators**
Girls Who Code hires and trains Technology Instructors and Teaching Assistants to facilitate the program on campus at a 8:1 student to teacher ratio.

**Results**
Girls Who Code is a nationally respected brand with tens of thousands of alumni across all 50 states! Our alumni are attending the top Computer Science universities in the U.S. and are getting jobs from our 80+ corporate partners.

**Fun and Friendships**
Your daughter will learn to code alongside 25 other girls and will join an alumni network of tens of thousands of girls across the country who are using computer science to solve problems they care about.

Beginners welcome; no experience required!

Cost $2,000 | Scholarships available to those who qualify!

**APPLY NOW FOR SUMMER 2017! | GIRLSWHOCODE.COM/CAMPUS**
What is Girls Who Code?
Girls Who Code is a national non-profit organization dedicated to closing the gender gap in technology. Our programs educate, inspire, and equip girls to pursue opportunities in computing.

What will girls learn in the Campus program?
We offer two introductory Campus programs for middle and high school students. The middle school program, Introduction to Computer Science, is a two-week introductory computer science course that uses Scratch, a drag-and-drop programming language, to introduce girls to the fundamentals and creative power of computer science. The high school program, Introduction to Web Development, uses JavaScript, HTML and CSS to introduce the basics of web design.

In both programs, girls work together on projects that are designed to teach them the GWCCore4 Programming Concepts: loops, variables, conditionals, and functions and will learn about different female role models in computing.

Who is eligible to attend Girls Who Code Campus?
Girls Who Code Campus programs are introductory programs for girls who are new to computer science. To apply, your daughter must be a rising 6th through 8th grader for the middle school program or a rising 9th through 12th grader for the high school program and be able to spend the full two weeks with us.

Are boys eligible to attend Girls Who Code Campus programs?
Our programs are intended for students who identify as female regardless of gender assignment at birth or legal recognition.

How much does the Girls Who Code Campus program cost?
Campus programs cost $2,000 to attend with lunch provided to students each day. We also provide a limited number of need-based full-program scholarships for students who qualify.

What does the Campus application process look like?
All eligible 6th through 12th grade students can apply and pay for Campus online at girlswhocode.com/campus. Girls Who Code does not ask for GPA, transcript, or any recommendations or personal statements. The application also includes information on scholarship eligibility.

When does the application open and when is it due?
The online application for Campus programs will open March 13, 2017 and remain open until each program is full. There is no application deadline, though seats will fill quickly. Students may be placed on a waitlist if a Campus program already has 25 students.

When are students notified of their acceptance to a Campus program?
You and your daughter will be notified of her acceptance via email shortly after her application is completed and reviewed by her program host site. If a program is full, your daughter may be placed on a waitlist.

Will Girls Who Code provide housing for the Campus program?
No, Girls Who Code and program host sites do not provide housing. Campus programs are day programs and the vast majority of students apply to a location close to where they live.

How many girls are in each classroom?
Each classroom hosts 25 girls, an 8:1 student to teacher ratio to ensure support from our teaching staff while also teaching girls about sisterhood & collaboration.

What dates are available in Minneapolis?
Girls Who Code @ UMN is hosting a Middle School Program June 19-30th and a High School Program July 10-21st 2017. The club will run Monday – Friday 9:00AM- 4:00PM.

Where is Girls Who Code Campus?
Girls Who Code @ UMN will be located at the University of Minnesota East Bank Campus in Minneapolis, MN.
